

MANUAL ACCESS KIT

SPEC SHEET: TACTICAL ELECTRONICS

EOD TOOL
KITS

DESCRIPTION

Used as a standalone kit or as part of the 2nd Line Kit, the Manual Access Kit is outfitted with the tools necessary to stabilize and access devices in order to perform render safe procedures. The kit includes Tactical Electronics 6ft trip wire probe providing the operator immediate response when a trip wire is encountered, during slow methodical or dynamic searches. Additionally, the kit includes the Tactical Electronics black out cloth; this lightweight cloth reduces light influence on suspect devices or contains light during those times when light discipline is required. The Bit Kit is also included with the Manual Access Kit.
