

## DESCRIPTION

The XTK® Grid Aim System provides EOD Operators with the capability to target individual components inside a device with extreme accuracy using standard precision tools. The XTK® Grid Aim System works in conjunction with the X-Ray Toolkit™ software to provide a precision firing solution.

XTK® software is available to bomb technicians and government agencies through [www.xraytoolkit.com](http://www.xraytoolkit.com). Tactical Electronics is certified to instruct the XTK® software and has been licensed by Sandia National Labs to manufacture the Grid Aim System.
