SPECIFICATIONS:

WEIGHT:	9.0lb / 4.5kg
DIMENSIONS:	L 11.5in x W 4.5in x H 10.25in / 29.21cm x 11.43cm x 26.04cm

DESCRIPTION:

The Manual Access Kit v2 (MAK v2) is included in the 2nd Line Elite EOD Tool Kit or can be purchased stand alone. It contains manual hand tools only and is designed for use when 1st line tools are not enough to stabilize, gain entry, or perform more complicated tasks. The bag itself has been redesigned from previous versions to include several detachable inner pouches secured by hook-and-loop, including a “grab-and-go” 1-Minute Epoxy zipper pouch. Unnecessary material has been removed resulting in a lighter weight bag from previous versions. The bag’s perimeter dimensions are equal to the DDK v2 and the PAK v2 ensuring a good “stackable” fit inside the 2nd Line Elite backpack or other containers. Our modular design provides increased kitting flexibility and better functionality to the EOD Operator.
