SPECIFICATIONS:

WEIGHT:

9.0lb / 4.0kg

DIMENSIONS:

L 11.5in x W 3.5in x H 10.25in / 29.21cm x 8.89cm x 26.04cm

DESCRIPTION:

The Power Access Kit v2 (PAK v2) is included in the 2nd Line Elite EOD Tool Kit or can be purchased stand alone. It contains cordless 12V drill and rotary power tools with a wide assortment of wood, metal, plastic, hole, and other drill and cut-off bits. The PAK v2 is designed for use when 1st line or manual tools are not enough to gain access in more complex situations. The bag itself has been redesigned from previous versions to include a zipper sleeve to securely hold bits. Attached by hook-and-loop, the bit sleeve is “grab-and-go” for increased flexibility for the EOD Operator. The bag’s perimeter dimensions are equal to the DDK v2 and the MAK v2 ensuring a good “stackable” fit inside the 2nd Line Elite backpack or other containers. Our modular design provides increased kitting flexibility and better functionality to the EOD Operator.
