

Voltage Current Probe Attachment (VIPA+)

VIPA+ (Extended version) – Available in 4 or 8 lead colour coded sets

KEY FEATURES

- › Hardwired conductive path from bed of nails to the connector
- › Linearly driven bed of nails to prevent wire shearing
- › Single handed operation
- › Colour coded pairs
- › Non-conductive body material (PC and glass filled nylon)
- › Minimal preparation time prior to deployment
- › Truncated pins to provide strength and prevent hooked ends
- › Strain relieved on soldered electrical connections within body due to mechanical design

TECHNICAL SPECIFICATION

- › VIPA+ 4 lead kit: Weight: 425g (23oz)
- › VIPA+ 8 lead kit: Weight: 800g (28oz)
- › VIPA+ insertable probe length: 245mm
- › Available in either ultra-flexible silicone cable or hardwearing PVC
- › Custom colours are available on request
- › Insulated stackable banana plug connectors to prevent unintended connections
- › Kit indication feature tabs and paint pen
- › The materials in the VIPA products have been tested by UL to nationally recognised standards
- › Images show 4 lead set. 8 lead set contains two additional pairs of the same colour
